

OUR FEES

We believe in transparency around fees so you can plan your child's health care.

We take pride in providing your child and family with high quality care, with comprehensive before- and after-care with input from our team of paediatricians, specialist general practitioners and nurses.

Our fees are outlined below. In most cases Medicare rebate can be processed on the day of the appointment. Please note your child must be present in order to claim the Medicare rebate. Please do not hesitate to contact us if you would like any further information or fees specific to the practitioner you are seeing.

Please note we do not accept cash; all payments are via credit card/EFTPOS.

*For Medicare rebate the first appointment with our GP must be attended in person.

Nursing Appointments

We may recommend your child follow up with our nurse after their medical appointment. Following the commencement of stimulant medication for ADHD, we recommend a review to ascertain your child is tolerating the medication with minimal side-effects. If there are any concerns, our nurse will consult with your child's doctor.

The cost of these appointments is \$50-\$75. No Medicare rebates apply to these appointments.
